

# Singleton Mentor Registration

#ASMicrobe  
June 20-24, 2019  
Moscone Center  
747 Howard Street  
San Francisco, CA

Thank you for your interest in mentoring at #ASMicrobe2019! Many of us know how it feels to have a hard time at large meetings like Microbe and would like to help others have a more fulfilling time.

This program is grassroots, and has a shoestring budget. But we're passionate, and we think the commitment of a bit of your time and effort will really make a difference in a lot of young scientists' lives and careers. It's likely be personally fulfilling, too.

Our biggest commitment of time is on Friday, June 21. You may choose to gather your Singletons the night of the Opening Session, but that is going to be up to you. On Friday you'll spend time with your group throughout the day, and that evening we'll meet for Happy Hour from 4-5 on the exhibit floor and a mixer from 5-7.

If you'd like to participate, please fill out the form below so we can match you up with some Singletons. We'll email you with more details once we've made the matches. As a potential mentor, we welcome your input, as YOU will be what makes this enterprise work. Once the matches are made, you will receive an email from us with your Singletons, along with a schedule, and a code of conduct.

Thank you for your interest and your commitment to your fellow scientists!

\* Required

1. **Email address \***

---

2. **Name \***

---

3. **Twitter handle (include the @)**

---

4. **Organization \***

---

5. **What days will you be available to mentor? \***

*Check all that apply.*

- June 20
- June 21\*
- June 22
- June 23
- June 24

6. **Track \***

*Check all that apply.*

- Antimicrobial Agents and Resistance
- Applied and Environmental Science
- Clinical Infections and Vaccines
- Clinical and Public Health Microbiology
- Ecology, Evolution and Biodiversity
- Host-Microbe Biology
- Molecular Biology and Physiology
- Profession of Microbiology
- Other: \_\_\_\_\_

**7. Current Position (Primary Role) \***

Mark only one oval.

- Undergraduate Student
- Graduate Student (Masters)
- Graduate Student (PhD)
- Staff Scientist (bench/stats/bioinformatics/lab manager/etc)
- Post-Doc
- Educator
- Principal Investigator
- Other: \_\_\_\_\_

**8. How can you help Singletons navigate the meeting? \***

Check all that apply.

- Networking
- Navigating the Talks
- Getting the most out of the Poster Sessions
- Learning from others in different fields (academia to industry, e.g.)
- Getting useful information from the vendors
- Other: \_\_\_\_\_

**9. How many Singletons are you willing to mentor? \***

Mark only one oval.

- 1-2
- 3-4
- 5-6
- Whatever you need, we'll figure it out

**10. Who would you like to be paired with? \***

Check all that apply.

- Undergraduate Students
- Graduate Students
- Post-Docs
- Early Career PhD Scientist
- Staff Scientists (BS/MS level, including lab/stats/bioinformatics/etc)
- Dealer's Choice
